EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald J. Kobovcik (Reg # 25,401) on 05/10/07.

The application has been amended as follows:

In claim 2, line 3, the word "in" has been deleted and the phrase ---linked to an--- has been inserted therefor.

The following is an examiner's statement of reasons for allowance: The examiner has found claims 1-3, 6-9, 11 and 12 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to 3-branched asparagine-linked oligosaccharide derivative of a given formula (1) wherein the nitrogen of amino group of asparagine is modified with a lipophilic protective group, biotin group or FITC group. The Furthermore, the invention relates to a method of preparing said 3-branched asparagine-linked oligosaccharide derivative. The very relevant prior art document Endo et al. (The Journal of Biological Chemistry (1982) Vol. 257. No. 15, pages 8755-8760) to this invention does not disclose or suggest the 3-branched asparagine-linked oligosaccharide derivative not the method of preparing the same.
